PROFESSIONAL SUMMARY

Information Technology student at Harare Institute of Technology where I have learnt networking, computer hardware, technopreneurship, software engineering, research methods, web technologies and one of the university's most recognised student voices twice chosen as Graduation Speaker with the President of Zimbabwe and other dignitaries in attendance, selected to represent students before UNESCO delegations and national women-in-science panels. Currently building expertise in data science and engineering through the competitive Tech4Dev Women Techsters Fellowship. Holds a Google Data Analytics Certificate, working on the Google Business Intelligence certificate, Millenium Fellow and has completed the McKinsey Forward Program. President a 50+ member Enactus chapter, drives STEM advocacy across digital platforms and builds technology solutions for underserved Zimbabwean communities. Combines technical depth in Python, SQL, Power BI and Tableau with executive leadership and the communication skills to move any room.

EDUCATION AND TRAINING

- Women Techsters Fellowship (Data Science and Engineering)** | Tech4Dev, Nigeria September 2025 – September 2026
- Competitively selected from thousands of applicants training in Excel, Power BI, Python, ML, statistical modelling, data pipelines and end-to-end data workflows
- BTech Information Technology** | Harare Institute of Technology (HIT) July 2024 – June 2028
- Graduation Speaker ×2 | Millennium Campus Fellow | Peer Educator | President, Enactus HIT
 - Public Speaker — UNESCO Safer Campuses Launch, HIT Girls in ICT Panellist, Technovation Week, International Women's Day
- A-Level: Mathematics, Physics and Computer Science** | St George's College, Harare 2022 – 2023
- Zimbabwe National Public Speaking Team | Secretary of Orators and Debate (Regional Championship-Winning and CBZ Seniors Debate Team)

LEADERSHIP AND EXPERIENCE

- President and Data Lead** | Enactus HIT September 2025 – Present
- *I have worked on multiple projects that have won funding some of which are:
- e-Mukoko (IoT based hive monitoring system):I lead this project and I conducted audience segmentation and engagement analytics for the farmers we wanted to work with and this project just placed first at the JCI national competition.
 - An educational game suite for the Above the Influence Delta competition where we were one of the 5 best teams.
 - A battery innovation for the Schneider electric battery innovation challenge which saw us place 3rd at the competition.
- *Organised the Innovation Impact Competition (March 2026) largest student-entrepreneur event at HIT managing logistics, partnerships, prizes and a 50+ member team.
- Squad Lead (Research, Advocacy and Digital Communications)** | She STEMs Foundation 2025 – Present
- *Produced data-backed campaign content, analysing post-performance across LinkedIn, Instagram and Facebook to optimise reach and audience engagement. Leading research and policy advocacy work advancing gender equity in Zimbabwe's STEM sector
- HIT 200 Project** August 2025 – present
- *Vaka (diaspora to local construction marketplace):** I am working as the project manager for this project, I also directed market research, customer validation surveys and feasibility analysis for the project.
- Built data collection systems and analysed user feedback to validate the platform model and guide product decisions
 - We also did a full business plan for this project under the guidance of the university's Technopreneurship department.
